

Endura2 300mm PVD Common Chamber Components

Who should attend?

This course is designed for those individuals in the semiconductor industry who require an in-depth understanding of the mechanical and electrical configuration of the Endura2 300mm PVD chamber.

Course Benefits

Increase knowledge of Endura2 300mm PVD chamber components and subcomponents.

Prepare technicians for training on Endura2 300mm PVD chamber maintenance procedures.

Course Objective Summary

- Identify and describe the function of the PVD chamber components
- Perform chamber operations using the appropriate software

Registration Information

Prerequisites: None
Course Length: 1 Hour
Course Type: Web-Based Training
Course Number: TRAW1409b

To enroll or for more information on our products and services, please call our registrar at one of the numbers below or go to www.appliedtraining.com.

- 1-800-468-8888, option 4 (United States)
- 1-512-272-0027 (International)

Computer System Requirements:

Attending this course requires a computer using Internet Explorer 5.5 or higher with the plug-in for Flash Player 9. For the audio portion of the class, headsets or speakers are required. 128MB RAM or higher, high-speed Internet access and a screen resolution of 1024 x 768 are also highly recommended.
