

Endura2 300mm Platform and Chambers Overview

Who should attend?

This course is designed for those individuals in the semiconductor industry who require knowledge of the Endura2 300mm mainframe and its basic function in the fab.

Course Benefits

Increase knowledge of system components and how they interconnect.

Reduce system faults by enabling the proper use of systems.

Course Objective Summary

- Describe the function of the Endura2 300mm system and its major components
- Locate the major components on the Endura2 300mm system
- Describe the function of the Endura2 300mm process chambers

Course Modules

1. *Endura2 300mm Platform and Chambers Overview*

Registration Information

Prerequisites: None
Course Length: 0.5 Hours
Course Type: Web-Based Training
Course Number: TRAW1410b

To enroll or for more information on our products and services, please call our registrar at one of the numbers below or go to www.appliedtraining.com.

- 1-800-468-8888, option 4 (United States)
- 1-512-272-0027 (International)

Computer System Requirements:

Attending this course requires a computer using Internet Explorer 5.5 or higher with the plug-in for Flash Player 9. For the audio portion of the class, headsets or speakers are required. 128MB RAM or higher, high-speed Internet access and a screen resolution of 1024 x 768 are also highly recommended.
