

## Vacuum Gauging Overview

### Who should attend?

This course is designed for individuals in the semiconductor industry who require the knowledge and skills to understand vacuum gauge theory.

### Course Benefits

Increase knowledge of vacuum gauges, including their process applications, advantages and disadvantages, and ranges.

### Course Objective Summary

- Identify pressure references associated with vacuum
- Describe different types of vacuum gauges and identify their ranges
- Explain the function and operation of indirect and direct pressure gauges

### Course Modules

1. *Overview*
2. *Indirect Gauging*
3. *Direct Gauging*

### Registration Information

**Prerequisites:** None  
**Course Length:** 1 Hour  
**Course Type:** Web-Based Training  
**Course Number:** TRAW1544b

To enroll or for more information on our products and services, please call our registrar at one of the numbers below or go to [www.appliedtraining.com](http://www.appliedtraining.com).

- 1-800-468-8888, option 4 (United States)
- 1-512-272-0027 (International)

### Computer System Requirements:

Attending this course requires a computer using Internet Explorer 5.5 or higher with the plug-in for Flash Player 9. For the audio portion of the class, headsets or speakers are required. 128MB RAM or higher, high-speed Internet access and a screen resolution of 1024 x 768 are also highly recommended.
