

SEMICONDUCTOR EQUIPMENT SAFETY & LOCKOUT/TAGOUT OVERVIEW

Who should attend?

This course is designed for those individuals in the semiconductor industry who require the knowledge to safely perform maintenance according to Applied Materials standards.

Course Benefits

Developed in accordance with regulatory requirements to ensure safe working practices.

Increase fab safety awareness.

Course Objective

- Describe how safety is implemented at Applied Materials.

Course Module

1. Overview

Registration Information

Prerequisites: None

Course Length: 1 Hour

Course Type: Web-based Training

Course Number: TRNWEB-116

To enroll or for more information on our products and services, please call our registrar at one of the numbers below or go to www.appliedtraining.com.

- 1-800-468-8888, option 4 (United States)
- 1-512-272-0027 (International)

Computer System Requirements:

Attending this course requires a Windows 98, NT, 2000 or XP computer using Internet Explorer 5.5 or higher. 128MB RAM or higher and high-speed Internet access is also highly recommended.

Note: This course may or may not meet local regulatory requirements for employee safety and health training. Consult your local employee safety and health representative to determine if this course meets local or corporate regulatory requirements.
