

ENDURA 300mm 4.0 SYSTEM OVERVIEW

Who should attend?

This course is designed for those individuals in the semiconductor industry who require an overall understanding of the Endura 300mm 4.0 System.

Course Benefits

This course will allow the non-expert to understand the terminology and concepts behind the Endura 300mm 4.0 PVD System.

It will also benefit those who need to know how the Endura 300mm 4.0 System operates and its position in the wafer fabrication process.

Course Objectives

- Describe the function of the Endura 300mm 4.0 system and its major components
- Describe the role the Endura 300mm 4.0 system plays in chip manufacture in the fab.
- Describe how the process chamber operates.

Course Modules

1. *Components of the Endura 300mm 4.0 system*
2. *Role of the Endura 300mm 4.0 system*
3. *Process chamber operation*

Registration Information

Prerequisites: *None*

Course Length: *1 Hours*

Course Type: *Web-Based Training*

Course Number: *TRNWEB-129*

To enroll or for more information on our products and services, please call our registrar at one of the numbers below or go to www.appliedtraining.com.

- 1-800-468-8888, option 4 (United States)
- 1-512-272-0027 (International)

Computer System Requirements:

Attending this course requires a Windows 98, NT, 2000 or XP computer using Internet Explorer 5.5 or higher. 128MB RAM or higher and high-speed Internet access is also highly recommended.
