

## PRODUCER ETCH 200/300mm OPERATIONS & PROGRAMMING

### Who should attend?

This course is designed for those individuals in the semiconductor industry who require the knowledge and skills to operate the Producer Etch 200/300mm Operations and Programming.

### Course Benefits

Decrease Time to Competency for all technicians who need to operate the Producer Etch 200/300mm system.

Demonstrate capability by operating a simulated Producer Etch 200/300mm system in a controlled environment without requiring a system resource.

Increase overall knowledge on the operation of the Producer Etch 200/300mm system.

Provide technical foundation necessary to work effectively with the Producer Etch 200/300mm software.

### Course Objective Summary

- Identify and describe the basic operation and how to log onto the Producer Etch 200/300mm software.
- Identify and demonstrate how to navigate specific chamber operations screens and their functions.
- Identify and demonstrate how to create and run sequences and recipes.

### Registration Information

**Prerequisites:** None  
**Course Length:** 1 Hour  
**Course Type:** Web-based Training  
**Course Number:** TRNWEB-141

To enroll or for more information on our products and services, please call our registrar at one of the numbers below or go to [www.appliedtraining.com](http://www.appliedtraining.com).

- 1-800-468-8888, option 4 (United States)
- 1-512-272-0027 (International)

### Computer System Requirements:

Attending this course requires a Windows 98, NT, 2000 or XP computer using Internet Explorer 5.5 or higher. 128MB RAM or higher and high-speed Internet access is also highly recommended.
