

PRODUCER ETCH 200/300mm PROCESS OVERVIEW

Who should attend?

This course is designed for those individuals in the semiconductor industry who require a general understanding process run by the Producer Etch 200/300mm system.

Course Benefits

Increase knowledge of the etch process and understand the process fundamentals of the Producer Etch 200/300mm system.

Course Objective Summary

- Describe and identify the major process recipes used in the etch Chamber.
- Describe the overall chip manufacturing process.
- Describe the etch process and its purpose.
- Identify the types of hardware used in the etch process.
- Describe and identify the major process recipes used in the Producer Etch 200/300mm system.
- Describe the components and steps that make up an etch process recipe.

Registration Information

Prerequisites: None
Course Length: 1 Hour
Course Type: Web-based Training
Course Number: TRNWEB-142

To enroll or for more information on our products and services, please call our registrar at one of the numbers below or go to www.appliedtraining.com.

- 1-800-468-8888, option 4 (United States)
- 1-512-272-0027 (International)

Computer System Requirements:

Attending this course requires a Windows 98, NT, 2000 or XP computer using Internet Explorer 5.5 or higher. 128MB RAM or higher and high-speed Internet access is also highly recommended.
