

## VERITYSEM 200mm/300mm COMMUNICATION & CONTROL

### Who should attend?

This course is designed for those individuals in the semiconductor industry who require a general understanding of the communication control system of the VeritySEM 200mm/300mm system.

### Course Benefits

**Provide technical foundation necessary to work effectively with Applied Materials equipment.**

Provide understanding of equipment function, operation, and basic process application for Applied Materials equipment.

### Course Objectives

- Describe the communication control system for the VeritySEM system.
- Identify the functions and locate the VeritySEM computers.
- Describe how to control the Phantom system.
- Identify and describe the ELS and S2DIO.
- Describe the features, operation, and exercise control of the main screen windows and buttons.
- Describe the file structure and data flow.
- Describe the databases and library file system.

### Registration Information

**Prerequisites:** None  
**Course Length:** 1.5 Hours  
**Course Type:** Web-based Training  
**Course Number:** TRNWEB-154

To enroll or for more information on our products and services, please call our registrar at one of the numbers below or go to [www.appliedtraining.com](http://www.appliedtraining.com).

- 1-800-468-8888, option 4 (United States)
- 1-512-272-0027 (International)

### Computer System Requirements:

Attending this course requires a Windows 98, NT, 2000 or XP computer using Internet Explorer 5.5 or higher. 128MB RAM or higher and high-speed Internet access is also highly recommended. For the audio portion of the class, headsets or speakers and a sound card are required.
