

FACTORY INTERFACE 300mm ADOe LOADPORT FUNCTIONAL DESCRIPTION

Who should attend?

This course is designed for those individuals in the semiconductor industry who require the knowledge and skills to perform maintenance with the Factory Interface ADOe Loadport.

Course Benefits

Increase knowledge of system components and their interrelationships.

Reduce system faults by enabling proper use of systems.

Course Objectives

- Locate and identify the critical components of the ADOe.
- Locate adjustments for pneumatic and electronic functions.
- Verify normal operation for loading and unloading of FOUPs.
- Verify proper link between the Factory Interface Controller and the ADOe.
- Describe the LED error status conditions.

Course Modules

1. *ADOe Functional Description*

Registration Information

Prerequisites: *None*

Course Length: *1 Hour*

Course Type: *Web-Based Training*

Course Number: *TRNWEB-175*
