

CENTURA ACP 300mm EPI SYSTEM FACILITIES AC POWER REQUIREMENTS

Who should attend?

This course is designed for those individuals in the semiconductor industry who require the knowledge to understand the requirements for the installation of the Centura ACP 300mm Epi AC power system.

Course Benefits

Improve knowledge of system installation procedures.

Reduce installation preparation time.

Course Objective Summary

- Describe the major AC components and AC system layout.
- Identify the components of the Remote AC cabinet.
- Identify the components of the Chamber Distribution cabinet.
- Identify the power requirements for the Centura ACP 300mm Epi system.
- Identify all power connections from the Remote AC cabinet to the system.

Course Modules

1. *Centura ACP 300mm Epi System Facilities AC Power Requirements*

Registration Information

- Prerequisites:** *None*
Course Length: *0.5 Hours*
Course Type: *Web-based Training*
Course Number: *TRNWEB-195*

To enroll or for more information on our products and services, please call our registrar at one of the numbers below or go to www.appliedtraining.com.

- 1-800-468-8888, option 4 (United States)
- 1-512-272-0027 (International)

Computer System Requirements:

Attending this course requires a Windows 98, NT, 2000 or XP computer using Internet Explorer 5.5 or higher. 128MB RAM or higher and high-speed Internet access is also highly recommended. For the audio portion of the class, headsets or speakers and a sound card are required.
