

Vantage 300mm Radiance System Common Ground Architecture (CGA) Operations

Who should attend?

This course is designed for those individuals in the semiconductor industry who require the knowledge and skills to operate and program the software operating system on the Vantage 300mm Radiance system.

Course Benefits

Decrease Time to Competency for all technicians who need to operate the Vantage 300mm Radiance system.

Increase overall knowledge on the operation of the Vantage 300mm Radiance system.

Provide technical foundation necessary to work effectively with the Vantage 300mm Radiance system software.

Course Objective Summary

- Identify and describe the CGA software operations of the Vantage 300mm Radiance system.
- Identify and demonstrate how to navigate specific chamber operations screens, and their functions.
- Identify and demonstrate how to create a process recipe.

Course Modules

1. *Process Chamber Operations*
2. *Cooldown and Aligner Chamber Operations*
3. *Recipe Programming Overview*

Registration Information

Prerequisites:

- *300mm Common Ground Architecture (CGA) Operations (TRNWEB-204)*

Course Length: 3 hours

Course Type: Web-based Training

Course Number: TRNWEB-205

To enroll or for more information on our products and services, please call our registrar at one of the numbers below or go to www.appliedtraining.com.

- 1-800-468-8888, option 4 (United States)
- 1-512-272-0027 (International)

Computer System Requirements:

Attending this course requires a Windows 98, NT, 2000 or XP computer using Internet Explorer 5.5 or higher. 128MB RAM or higher and high-speed Internet access is also highly recommended.
