

300mm MILLENNIUM CONTROL SYSTEM

Who should attend?

This course is designed for those individuals in the semiconductor industry who require the knowledge and skills to perform common Millennium Software procedures on the 300mm Etch tools.

Course Benefits

Improve knowledge of subsystem operation, features, function, and procedures.

Increase subsystem maintenance and troubleshooting capabilities.

Course Objectives

- Give the user a general understanding of the basic operations that can be performed.
- Give a review of common Millennium Software procedures that can be performed on the 300mm Etch tools.

Course Modules

1. *Basic Software Operation*
2. *Advanced Software Operations*

Registration Information

Prerequisites: *None*

Course Length: *1 hour*

Course Type: *Web-based Training*

Course Number: *TRNWEB-93*

To enroll or for more information on our products and services, please call our registrar at one of the numbers below or go to www.appliedtraining.com.

- 1-800-468-8888, option 4 (United States)
- 1-512-272-0027 (International)

Computer System Requirements:

Attending this course requires a Windows 98, NT, 2000 or XP computer using Internet Explorer 5.5 or higher. 128MB RAM or higher and high-speed Internet access is also highly recommended
